Poor little Cody just can't catch a break, even as a 2 year old.

PC made a compilation of young children Burping and put it on his channel https://youtu.be/bg6ixF8N4K4?si=VHwYXtwMkZR9cqW_

Predatory & pedophilic actions:

**It has been revealed that PC has also preyed on children in real life. He's recorded videos and taken photos of children in public at places like carnivals and restaurants. This has prompted people in his local community to call him out for being a pedophile.**
Video of him recording children:

Well, I guess the Big Easy of Royersford is not a good place to go to eat and hang out at. One of the bartender ladies got very offended and appalled that I dare do a vlog of inside the bar back in November showing her working hard that she pms me to take the video down and says it's ILLEGAL. Nothing about what I did was illegal. Only if the owner themselves wanted the video down there might be a muddy situation. I would think as an employee or owner you would WANT people to ...

I can agree with the bartender.
And it makes me wonder if YOU understand how creepy you look.
We saw you at royersford community day and limerick community day.
You made everyone around you extremely uncomfortable. My wife immediately wanted to leave both events because of you. You seriously look like a creepy pedophile. In the future maybe avoid following little kids around with your camera.

PC has also preyed on children online, some as young as 11 years old. 3 victims have spoken out against him since, which is detailed in Scenebean's video.

VICTIM #1:

PC's first victim to speak out was first "befriended" by PC when he was 13 years old. PC is known to primarily talk to his victims on Steam DMs, as all chat history on Steam is cleared after 2 weeks, deleting potential evidence that may be used against him.

They talked intimately on Steam for months, with PC going as far to buy him gifts such as Steam games, a common trope of grooming

# What is grooming and exploitation?

When someone befriends and builds a relationship with a child so that they can manipulate them, this is known as **grooming**. It can happen online or offline.

They might give the child things like gifts, drugs, money, gaming credits and skins, or affection and a sense of belonging and ask them to carry out criminal or sexual activities in return. This is child exploitation.

PC has recorded gameplay sessions between him and his victims, including Victim #1, without their consent or knowledge. This is not only morally wrong and inappropriate, but is illegal in PC's home state of Pennsylvania.

left alone many times. PC claimed that Victim #2 “betrayed” him for not wanting to be “friends” anymore, a common manipulation tactic from groomers.

I don't know if this is the right place to ask this but were you one of the 3 people in scenebean's latest video talking about me? I'm asking cause you happen to have a video where you seem to be playing a game with scenebean. If so I'm sorry if I ever recorded you without your permission but the only time I ever would have done that was when we were playing l4d2 with your/my friend Andrew. And I'm sorry if you thought I sounded old but i've had various steam friends old and young and I only find out their age usually after they present their voice on microphone call. And I remember you interviewed me about the whole video she originally made and I thought we were all chill, but I guess not.

Everything PC Gaming Honestly destroyed me mentally.
I can't seem to not think of him everyday and through his many controversies surrounding me, @Slaimdanoob @yourscenebean and @MuscleManiscool It's taking an toll on me.
Everything I may of forgave you but I will not forget everything you did to me and the victims.
I know you don't want to be In the drama, so If you see this you do not need to respond or talk abt It, this post Is not for attacking you.
But what you did, was wicked and unimaginable, I done bad things too but man... I haven't been coping okay either, but thats for private messages only.
In the end I am totally destroyed mentally by him.
I never got enough sleep just by thinking abt him and being so paranoid everyday and night.
I just feel sick just thinking abt all this and him.
I just want to be supported and cared abt Instead of being an punching bag for people like Everything PC Gaming.

So looks like scenebean made another video about me. She had 3 "victims" talk about their experience with me. The first two "victims" I have no idea who they are, but the 3rd I can tell from the voice and the fact that they talk about that Sacred Heart video that the 3rd "victim" is my old steam friend Spencer aka SpawN El Diablo in July 2024, who mind you made threats to a steam friend of mine for them to "kys" when the friend asked for evidence of why I'm a pedo as Spencer claimed. The two first "victims" seem to just say I friended them on steam and bought a game for them as I do once in a while with any steam friend I know who wants a game. There's nothing weird or "grooming" like about that. And for anybody saying I'm gaslighting or attacking critics I'm not I'm simply defending myself against horrible dangerous accusations. I'm not making another response video so I don't fuel scenebean's ego on becoming an "expose" channel. Video of Spencers spat with my one steam friend/saying that he'll make fake evidence about me and that sacred heart video linked here:

Everything PC Gaming Aujourd'hui à 19:18
I really don't want to dislike scene or any of her fans, I just wish we could just drop this all. Why would me dming her solve anything?
I also have the video of when she banned me so her saying she asked me why I was here and me giving a response is bs. She literally asked me why I was here, then 5 seconds flat later, POOF, I was banned.
They all like to facilitate lies and stretch stuff to fit their narrative. 90% of it being straight up lying and only 10% stretched truth. I said I wasn't going to get into this anymore and I stand by that.

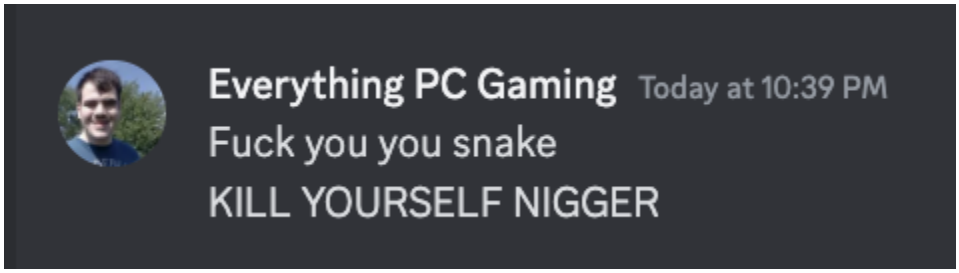
Racist, transphobic and ableist behavior:

PC, despite claiming not to be bigoted, has committed racist and transphobic actions many times. This includes everything from intentionally misgendering people to saying numerous slurs and including political propaganda in his “videos for kids.”



Pictured above is a Discord DM message sent to GoTube in response to him asking PC to refrain from talking to and associating himself with minors.
When joining GoAnimate City in 2022, PC he bizarrely stated that “there are only two genders” in his introduction message.

@BoxBoiTV I never interact sexually with minors, I may talk about video games and stuff on steam but just talking to someone under 17 is not creepy nor is it grooming. Know the difference.

PC doxxing victim 3(spencer) in community post and dropbox link
[In the dropbox link has spencers phone number as well as old dms of him and spencer back when spencer was 15. Keep in mind this was deep into their relationship and spencer is deeply ashamed of how he acted due to pcs enabling/manipulation.]

So looks like scenebean made another video about me. She had 3 "victims" talk about their experience with me. The first two "victims" I have no idea who they are, but the 3rd I can tell from the voice and the fact that they talk about that Sacred Heart video that the 3rd "victim" is my old steam friend Spencer aka SpawN El Diablo in July 2024, who mind you made threats to a steam friend of mine for them to "kys" when the friend asked for evidence of why I'm a pedo as Spencer claimed. The two first "victims" seem to just say I friended them on steam and bought a game for them as I do once in a while with any steam friend I know who wants a game. There's nothing weird or "grooming" like about that. And for anybody saying I'm gaslighting or attacking critics I'm not I'm simply defending myself against horrible dangerous accusations. I'm not making another response video so I don't fuel scenebean's ego on becoming an "expose" channel. Video of Spencers spat with my one steam friend/saying that he'll make fake evidence about me and that sacred heart video linked here:

P.S At 18:30 in scenes new video she stated I make fun of her fans, the people depicted there were not her fans but the youtubers AMAZINGBORYS11, skmatz and KnucklesHedgehog2010. Also the 1st "victim" I can tell is absolutely lying after rewatching the video, they say I know what school they went to, I've never known at all what school any of my steam friends have gone to except for my real life friend Ryan. And lastly it seems I'm blocked from commenting on scenebeans videos so that's pretty sus alone.

I think I'm going to lose it if Scenebean makes a third video about you.

I missed my scheduled time due to that drama from last night, but I'm going to try to release the "Everything PC Gaming Accidentally Drives Semi Truck Through WAWA And Grounds Bad Employee's And Teachers" on March 16th instead at around 12pm. I just seriously want this drama to stop, it's killing me and making me wish I wasn't alive anymore. I don't need to get help as people have threatened me...what I need is people to stop slandering me. End of story. And I won't apologize ever for that.

"Hey PC why don't you clear the air with Scene?" "Why can't you just come forward and give your viewpoint". Well because when I do scene asks why I'm on the discord server then blocks me :3 Video evidence of all the hate about me on the server and the twisted people coming in a few days but yeah there's no talking with these freaks. Literally. And I've confirmed that Spencer, Andrewbosch13/ Andrewtheman27 and Slaimdanoob were the 3 people labeled "victims" in scenes latest video. So basically after I release the video I recently recorded of scenes discord I'm not going to delve into this anymore. These aren't accusations or even slander anymore, this is just a 100% hate campaign against me and my fans. These people don't care about getting rid of actual child abuse in the world happening in countries like China, Africa, Russia or our own country of America, like many commentary channels they're all for attention and clicks. And it's sad that 3 ex steam friends of mine joined this brigade but I digress. Anyway I thank all the actual sane people in society who combat actual child abuse and the people who spread actual love to one another in these hard times. I guess like with many channels you'll always have detractors and people jealous of

Anyway I thank all the actual sane people in society who combat actual child abuse and the people who spread actual love to one another in these hard times. I guess like with many channels you'll always have detractors and people jealous of success even if dying down. And I know a good 50% of the people on that discord will see this post, and all I can say is you will never have happiness in life and will never grow up, because what you post online in any capacity is logged forever. One day someone will see your nasty post you made as a edgy 13-15 year old and will forever view you as that because of the hate you had for someone who was more fortunate than you. I will never apologize for heinous actions I never committed. Last special thanks to my good transgender friend who doesn't want to be mentioned in this drama, @BlainkSavvie, @GoldenOne131, @MJMYouTuber, @NotGrayYT, CosmicAnimate, @GoTubeYT, @Collin.Animations.2007, @Sodafanatic2008 and @daneschmidt3706 for being the good souls who make me feel like living every day along with my nuclear family! Without you I'd never get through these tough times. Keep on Gaming all!

As you can see here he was trying to twist The narrative to make scene and their admin team look bad. They all tried dming him and scene even sent him a frq as stated in their video linked above, but it was all ignored.

Leotoine was confirmed to be in the 13-15 age range, caillou Is suspected to be around the same age. Caillou was banned immediately and Leo was pulled into a ticket on scenes server.

PC telling Leo what to say to scene in dms Everything PC Gaming
Please tell her I explained everything in my post on my channel and there's nothing more for me to say to her. There's no reason I need to talk with her more, I just would like us to forget about each other. Please.
Everything PC Gaming
Also tell her I never harassed anybody. You can literally see no harassment from my WrapperGamer2024 account. Me screen recording the comments is NOT harassment. It's archival. The fact she thinks she can live in an echo chamber and ban me from seeing any of peoples true feelings on me is disgusting. I will not tolerate that.
Everything PC Gaming
I really don't want to dislike scene or any of her fans, I just wish we could just drop this all. Why would me dming her solve anything?
I also have the video of when she banned me so her saying she asked me why I was here and me giving a response is bs. She literally asked me why I was here, then 5 seconds flat later, POOF, I was banned.
They all like to facilitate lies and stretch stuff to fit their narrative. 90% of it being straight up lying and only 10% stretched truth. I said I wasn't going to get into this anymore and I stand by that.

This is the last time I'm bringing up the drama with scenebean and her community. I urge everybody in my community to NOT harrass, comment to, or join any of scenes servers or videos. I don't think any of my community has harassed anyone but I'm not sure. I'm saying this so everyones abudently clear. I don't want scenes community harassed, I don't want my community harassed by scenes fans or my fans vs other fans. I don't want to speak with scene, I don't want to ever talk about this drama ever again. It's done with. I'd like to just move on, everyone goes their separate lives and we enjoy 2025 at it's fullest. PLEASE.
EDIT: Also I have never sent any of my fans ever to harass or inflate any kind of narritive or flood people with comments, except ONE time in July 2021 to a channel I really loved called nextg which was a youtuber about 5 years older than me who posted youtube poop content from 2007-2020 which I really wanted him to get more followers since he was under 1k subs.

Everything PC Gaming Honestly destroyed me mentally.
I can't seem to not think of him everyday and through his many controversies surrounding me, @Slaimdanoob @yourscenebean and @MuscleManiscool It's taking an toll on me.
Everything I may of forgave you but I will not forget everything you did to me and the victims.
I know you don't want to be In the drama, so If you see this you do not need to respond or talk abt It, this post Is not for attacking you.
But what you did, was wicked and unimaginable, I done bad things too but man... I haven't been coping okay either, but thats for private messages only.
In the end I am totally destroyed mentally by him.
I never got enough sleep just by thinking abt him and being so paranoid everyday and night.
I just feel sick just thinking abt all this and him.
I just want to be supported and cared abt Instead of being an punching bag for people like Everything PC Gaming.
Thank you @Slaimdanoob @MuscleManiscool

I said I wasn't going to respond anymore to the dangerous allegations anymore but because African Vulture(one of the biggest goanimators) wants to spread the lies, I will now respond. I'm not f***ing around anymore. People said they'd stop but they're still responding. You will NOT destroy my reputation African Vulture and Scenebean. Video explanation of everything tomorrow. The Dark Truth of Everything PC Gaming (Remake).
Well Everything PC Gaming. Where do I begin. Everything PC Gaming is GoAnimator that has over 60,000 subscribers.
1. He did Pedophilia stuff. He made a video scene of Boris Raping Caillou. And Yes Everything PC Gaming is 29 or 30.
2. He's literally a Zoophilie supporter. He literally supports BLaiNK. @BlainkSavvie is a zoophilie by shipping herself with a character Barney The Purple Dinosaur. And BLaiNK also made me suicidal in the past by being Homophobic.
3. Everything PC Gaming is literally a homophobic person by making video scenes of Caillou saying the word "faggot" Note: LGBTQ people are allowed to say the fa word. Straight People are not allowed to say the fa word.
4. He makes Disturbing Video that are uncomfortable to watch called Cody getting tickled. I find that weird.

6. Everything PC Gaming is racist for making video scenes of Caillou and Cody saying racist stuff to Asians, Africans and Hispanics.
7. He makes disgusting jokes on his videos which is disgusting.
IDK how people still like him. He needs a life behind bars.

SCENEBEAN never made their videos to attack or harass sean and they made it very clear that was never the intention. It also wasn't for clout or fame. They only wanted to spread the word, protect, and advocate for others

As did brendan barney, african vulture, and everyone else who spoke up about him.

Spread the videos. Spread the word. Together we can make a difference and keep the community safe.
